Code Samples

Code Example 3-1	A First Example Program.	38
Code Example 5-1	Using XGL with Xlib.	81
Code Example 5-2	Using XGL with XView	85
Code Example 5-3	Using XGL with OLIT	89
Code Example 5-4	Inquire Example	95
Code Example 5-5	Transparent Overlay Example	106
Code Example 6-1	Simple Color Example	127
Code Example 6-2	Color Ramp Example	133
Code Example 6-3	Sharing the Window System Color Map	141
Code Example 6-4	Color Map Double Buffering Example	152
Code Example 8-1	Polygon Example	211
Code Example 8-2	Multirectangle Example	212
Code Example 8-3	Multicircle Example	216
Code Example 8-4	Example for Getting and Setting Pixels	221
Code Example 8-5	Example for Copying Pixels	223
Code Example 8-6	Accumulation Buffer Example	232

Code Example 9-1	Bezier Curve Example	244
Code Example 9-2	Circle Curve Example	248
Code Example 9-3	NURBS Surface Example	266
Code Example 10-1	Geometry Before Transformations	284
Code Example 10-2	Translation Example	286
Code Example 10-3	Rotation Example	288
Code Example 10-4	Scale Example	290
Code Example 10-5	3D Transform Example	293
Code Example 11-1	View Example	313
Code Example 12-1	Stroke Text Example	341
Code Example 12-2	Raster Text Example	349
Code Example 13-1	Line Pattern Example	372
Code Example 13-2	Edge Pattern Example	376
Code Example 14-1	Predefined Marker Example	386
Code Example 14-2	User-defined Marker Example	388
Code Example 15-1	Picking Example	398
Code Example 16-1	Facet Lighting Example	423
Code Example 16-2	Vertex Lighting Example	428
Code Example 16-3	Linear Depth Cueing Example	430
Code Example 16-4	Scaled Depth Cueing Example	433
Code Example 17-1	Gcache of Simple Polygon	453
Code Example 17-2	Gcache of Complex Polygon	455
Code Example 18-1	Texture Mapping Example	490
